

EagleMercury

Security Collaboration Suite

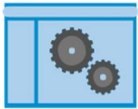

Integrated platform for collaboration in a secure environment.

Integrated solution for: exchange, encryption and archiving email - managing calendars, contacts and appointments - anti-virus and anti-spam – safe conferences - exchange and sharing files safely - Single Sign-On portal.

Get all your essential IT services from just one provider

EagleMercury Security Collaboration Suite, part of Eagle Networks Office in the Cloud, delivers email, voice, file collaboration tools and much more. It's all secure, integrated, and fully mobile.

Simplify IT management

Control all your users and services with one control panel, one bill and one contact if you ever need support.

Extend mobile productivity

Sync your email, calendars, contacts and more across all your computers, smartphones and tablets.

Reduce costs and preserve capital

Eliminate hardware purchases, server maintenance, and licensing and upgrade costs.

Secure your data

Trust our world-class datacenters to offer business-grade security and 99.999% uptime.

Rely on our support

Focus on your business knowing that expert help is available 24x7 if you need it — with average hold times of under minutes.

Because it's all delivered over the Internet our Office in the Cloud offers a cost effective way to solve immediate your worries — while boosting long-term productivity at the same time.

Functionality and reliability that lets you hit the ground running

Our “instant infrastructure” delivers enterprise-level performance from a business-grade cloud, including:

Email with Hosted Exchange

Get more from this indispensable business tool with streamlined onboarding and assured availability.

- Our Cloud Concierge team helps migrate your existing accounts at your own pace
- The online control panel makes it simple to assign email addresses, phone numbers and more

File sync and share with ShareSync

File collaboration that's truly business grade

- Sync files across every device including Mac, Windows, iPhone, iPad, and Blackberry
- Simple and secure folder and file sharing- even with people who don't have it installed

Single Sign-On ConnectID

Scale your cloud without sacrificing security or ease-of-use.

- Single point of access to all web apps
- Limit what users can see and do in any app

Instant messaging with Lync

Keep your communications flowing in real time, even with a mobile workforce.

- Connect using voice and video chat, screen sharing, virtual meetings and more
- Use presence indicators to choose the right channels to reach your coworkers

Full compliance with Email Archiving

Offers the preservation, protection and restoration features that your business needs to safeguard intellectual property, assure compliance, and speed eDiscovery.

- Compliance with regulations including FRCP, SEC, GLBA, HIPAA, HITECH and SOX
- 100% data capture across devices and platforms

Other services include:

- McAfee Email Defense
- PC Backup
- Outlook Backup
- Conference Bridges
- SharePoint
- and more!

Not all clouds are created equal. **Ours was created to be worry-free.**

Our cloud powers over 800,000 hosted Exchange mailboxes—more than any other provider in the world. That's because it's built on a decade of experience to offer the reliability, empowerment and 24/7 support you need to stay focused on using your services not maintaining them.
